Given Another Chance 'to Win Back Good Health'

Due to the generosity of their neighbors in St. Catharines, Ont., Paul Lahde, 53, suffering acute silicosis, and his wife, Annie, stricken with arthritis, are about to start the first lap of a journey to the Mayo clinic in Rochester, Minn., which they hope will make them well. Paul developed silicosis during 20 years' work in a Northern Ontario mine while his wife was attacked by arthritis 12 years ago in both legs and arms, forcing her to confinement in a wheelchair. Due to their illness they have never been able to raise the money for the trip to the famous clinic, let alone afford the costs of specialists. The badly needed money, collected by a neighbor, Mrs. Norma Graham, through a house-to-house canvass, is "our chance to win back our health," said Mrs. Lahde.

Many Hands Lighten Job at Church Form

The old saw about too many cooks spoiling the broth was surely put down cellar behind the axe on Monday when 17 tractors and other assorted farm machinery as well as about 50 men and boys gathered at the Church farm west of Town. The day was made short by the storm but before Old Man Winter finally won the battle every acre of the farm had been worked and some seeding had been done. A lot of cleaning up and repair work was also done. The 1st and 4th Wards are operating the farm this year and if the work problem is solved so efficiently throughout this year as on Monday the farming of the 200 acres will be a breeze.

Big ones, little ones, middle-sized ones—old ones, new ones—good ones and bad ones—early and late they came to congratulate the man of the hour who has survived seventy years, a wife and ten children, numerous grand children and even a great grandchild—and there's still a lot of pep in the old boy!

Heads Bent Low

A stooped old man and a young man chanced to meet one day;
 The young man said to the elder, "In his usual braggart way, 'Why don't you walk up straight like me

That's no way to grow old; It's all a form of habit; At least, that's what I'm told."

The old man gave him a knowing look, And said: "My dear young friend, Have you ever examined your wheat field,

And noticed the heads that bend? If not, just look them over As the harvest-time draws nigh.

You'll find the heads that are empty Are standing tall and high, But the heads that count in the harvest

Are filled and bending low, Awaiting the reaper's sickle; Their time is short, they know."

And as the young man passed on by, He slowly bowed his head; No doubt he pondered many a day On the things that old man said.

Canadians sell to themselves about three times as much of the goods produced in Canada as is sold abroad.

When the sun shone so brightly on Wednesday morning Mr. and Mrs. Lyman Jacobs, Rojana Bingham, Mirra Peterson, Marva Nalder, Virginia Rolison and Jan Heninger and all the children hurriedly prepared for a picnic and Easter Egg Roll. Although by the time they reached their destination the dark clouds had come out, they still had a good time.

KEEP COOL
By Bess Leeke

WE—Lefty, the boss, me, and Gus—was drivin' South for our health, you might say. (Chicago ain't so healthy no more) when we pass this little town down in Kentucky. I just about missed it but Lefty sure didn't. His eyes latched onto that bank building like flies on honey.

"You see that," he yelled, "A bank in this town."

"What about it?" I asked him. To us, banks can't mean nothing but trouble.

"Look at the people goin' in there. The dang place is full of 'em."

"Where'd they get the money to put in banks?" I asked.

"Probably got oil back in the hills," Gus put in.

"Oil in Kentucky?" Lefty sneered. "I ain't never heard of it."

"They got oil everwhere else," Gus said. "What's wrong with Kentucky? Last week I read a book—"

"Okay," Lefty grunted. "Don't get started on them books again."

That just shows you how ideas get started. I had the idea we oughta keep goin'. Lefty had the idea that a bank way out in the middle of nowhere was a push over. Gus don't have ideas.

Lefty's idea was, we go in soon's the guy gets there to open up next morning, get the dough and beat it before anybody knows what happened. We're already in trouble, so I ain't for the idea a bit but like I said Lefty's boss. To make it worse, it's hotter'n blue-blazes. It's so hot it makes you think maybe you ought to start livin' better.

Well, we stick it out—sweatin' all night not to mention gettin' scared to death when some old hound dog takes off after a possum. I ain't never seen of possum. Still don't know what it is, but it's bound to be somethin' terrible the way the dog was takin' on, howlin' and barkin' like he was strugglin' with the devil.

Some old guy with a gun big as he was stopped where we parked the car to sleep but instead was sittin' bug-eyed listenin' to that dog.

"You fellows from the city?" he asked.

We nodded.

"Thought so. Ain't nothin' to get skeered of. That's just old Sim after a possum. Sim's my dawg."

"Yeh?" Lefty said. "Ain't you afraid that possum's gonna hurt him?"

"Shucks no. Sim ain't even got him yet."

"You mean he sounds like that when he ain't dyin'?"

The old man sneered at us. "Ain't you never heard a hound dawg before? City folks—huh!"

That blamed dog took on all night so we wain't fit for nothin' the next mornin'. But Lefty had to go through with it and boy, it was better'n the day before.

"Bout eight-thirty we was waitin' for the bank to open. It looked easy enough. Wain't a soul in sight when the guy opened up. Gus stayed in the car and me and Lefty went inside."

It wain't much of a bank but the minute I put my foot in the door I thought I'd died and gone straight to heaven. The dang place was air-conditioned. This was one time I was going to enjoy working.

Lefty growled, "Okay, bud, this is a stick-up. Push the dough over the counter and no funny business or you'll get it right between the eyes."

We ain't never shot nobody but that helps 'em hurry it up. But Lefty's eyes got big as balloons and he started stacking money on the counter. Right then, the door opened and them dern people started pourin' in. Now just think, suppose you was right in the middle of a stick up and suddenly you had more witnesses than you could handle. Yeh, that's what we did, too. We took for the door.

"They robbed the bank!"

Well, brother, that was the end. Five minutes later, the sheriff was draggin' us off to the clink.

"You ought to know better'n try to stick up that bank," the sheriff told us. "It's the only place for fifteen miles that's got air-conditioning."

ARE your cooking techniques as up-to-date as possible? If they are, you are serving foods as nutritious as it's possible, and as attractively as they can be served. This means, they're eaten and well so, and your family is well nourished as economically so, as food does not go to waste.

Air, heat, light and water destroy food values in vegetables and fruits. Refrigerate them as soon as possible after picking or buying to keep them in as good condition as possible.

RECIPE OF THE WEEK

Cheese-Deviled Eggs

(Makes 6)

6 hard-cooked eggs, shelled
1 teaspoon vinegar
¾ teaspoon prepared mustard
½ teaspoon Worcestershire sauce
¼ teaspoon salt
3 tablespoons cheese-bacon spread

Cut hard-cooked eggs in half. Remove yolks and put through a sieve. Add all remaining ingredients and beat until smooth and fluffy. Refill egg whites and top with a dash of paprika, a sprig of parsley or chopped chives.

fore serving time.

When cooking fresh vegetables, use a minimum amount of water. This means from ¼ to 1 cup depending upon the amount of vegetable and its type. Cook quickly, covered.

To thaw frozen vegetables before cooking, leave them at room temperature for 30 minutes. This speeds the cooking process. Water may be brought to boiling point before the vegetables are added, if desired.

Overcooking decreases the palatability of vegetables. They should have some crispness when they're served. Season to taste after cooking with butter, meat drippings, salt and pepper or spices, as desired.

News Notes From New Dayton

Mrs. Nelson of Welling gave a fabric painting demonstration at the home of Mrs. Cletus Kaupp on Thursday April 8th to a group of twenty-two ladies. All those present were very impressed with the possibilities of these paints and a number of the ladies purchased some to try their own hands at decorating various items of their choice.

The Cancer Fund Campaign for New Dayton has been organized by the Women's Institute. Canvassers have been appointed and it is hoped that the residents of the community will continue to support this necessary work as they have in the past and once more put this district in the top collection bracket, an honour we have held for a number of years.

Residents of the town were alarmed Sunday morning of the 11th, to see flames and billows of black smoke from the rear of the Speedway Service Station. An alarm was sent out and volunteers from town and district points gathered, prepared for the emergency to find that a spark from burning trash had ignited a pile of old used tires and no appreciable damage was suffered.

Social Items: The John Reimers were very pleasantly surprised, Saturday night, the 11, when fifty-five well wishing friends called to tender them a housewarming party at their new home, three miles north of town. Gerald Marshall, on behalf of all those gathered, made them a presentation of a Step Table.

Mr. and Mrs. Harold Mercer of Calgary, were week-end visitors at the home of Mr. and Mrs. Jess Cress.

A baby girl, Susan, arrived on Tuesday, to bless the home of Mr. and Mrs. Clemence Kaupp.

A number of farmers have heeded the call of spring and are busy getting seed into the ground.

Easter Services were enjoyed by the congregations of capacity filled churches on Sunday, April 18th.

Think Constructively. Your mind is under your jurisdiction. Cultivate character-building thoughts, such as faith, courage, initiative, confidence, ambition, and independence. Favor positive, indomitable thoughts.

Mr. and Mrs. Wallace Wilde entertained at a turkey dinner over the holidays with the lovely evening being enjoyed by the J. A. Riries, Ken Baldersons, Ray Harkers and Ken Hindleys, all of Magrath.

Mr. and Mrs. T. George Wood left last week for a vacation in Salt Lake and points south. Woodruff and his wife Myrna accompanied them as far as Spokane, where they picked up their car and travelled on to Vancouver.

FOREMOST

During the "Holy Week Services" in the Foremost United Church, Reverend Harry Meadows of Fifth Avenue Church in Medicine Hat held a special service on Tuesday. A special service was held Wednesday by Reverend Mercer of Lethbridge.

Don't Miss The Boat

"For of all sad words of tongue or pen,
The Saddest are these: 'It might have been.'"

This poignant quotation from Whittier's poetry has a tragic application to the nationwide battle against cancer.

In 1953, an estimated 6,000 Canadian cancer victims were saved by modern treatment administered in the early stages of their illness. But the sad sequel is that another 6,000 died from cancer who might have been cured had they received prompt, effective treatment.

The Canadian Cancer Society, pioneers in the fight to conquer cancer, has geared its public educational campaign to the two-fold mission of telling Canadians the most easily recognized cancer symptoms and of persuading everyone to have a regular physical check-up.

We believe that everyone should know the seven common danger signals of cancer which the Society is stressing in its educational programme. They are:

1. Any sore that does not heal.
2. A lump or thickening in the breast elsewhere.
3. Unusual bleeding or discharge.
4. Any change in a wart or a mole.
5. Persistent indigestion or difficulty in swallowing.
6. Persistent hoarseness or cough.
7. Any change in normal bowel habits.

Let anyone feel that cancer is a remote threat to his or her life, let us remember that Canada's number two killer will strike an estimated one in every five Canadians at some time during their lives. Of every seven deaths last year, one was caused by cancer - the slayer that took a fatality toll in Canada in 1953 estimated at 18,000.

This is the dark side of the picture. But remember that about half of those stricken by cancer could be saved through early diagnosis and effective treatment.

Might have been cured is not much help to those who have lost a loved one. To strike out the might have been we must strike back at cancer and the best way to do is to support the Cancer Crusade. Its research programmes totalling more than \$2,000,000 since 1946 - already have meant much in years of life to many patients.

And this brings to us to the crux of this editorial message. The Society cannot carry on its three-fold programme of public and professional education, service to patients and research without adequate funds.

This month has been designated Cancer Control Month during which the Society conducts its annual fund-raising drive. When a Cancer Crusade volunteer calls for your contribution to the cancer crusade, we hope that you will open your heart and your purse.
